

CSANZ HEART SCHOOL UPDATE

Registration is now open for the upcoming Fellows-in-Training Heart School Webinar, presented on **Tuesday 17 September 2024** from **7.30pm (AEST)**.

To register, please click on the topic link below. Once registered, you will receive a confirmation email with the link to join on the night of the presentation.

[Topic: Patient selection for ablation in AF and heart failure](#)

Presenter: A/Prof Sandeep Prabhu

Chairs: Dr Louise Segan

Associate Professor Sandeep Prabhu (Sunny) is a cardiologist and interventional electrophysiologist specialising in the management of cardiac rhythm disorders. Sunny's an expert in the treatment of rhythm disorders with catheter ablation, including atrial fibrillation, SVT and ventricular tachycardia ablation. He also implants and manages cardiac devices including pacemakers, defibrillators and implantable loop recorders. Sunny is an internationally renowned clinical researcher with over 50 peer reviewed publications and is principal investigator for a number of clinical trials. His research is supported by the National Heart and Medical Research Council, the National Heart Foundation and the Baker Heart and Diabetes Research Institute.

The session will be delivered via Zoom, and run for around 1 hour, comprising a presentation of approximately 50 minutes and 10 minutes Q&A.

Thank you to our previous presenter of the SCCT Heart School Webinar Series, Dr Andrew Lin, and his talk on "CCTA: Beyond Coronary Artery Stenosis: Advances in peri coronary adipose tissue attenuation and artificial intelligence".
